## Warrant Service Module

*Track the status of all criminal warrants as they move through the justice process.*

### **Collaboration meets efficiency.**

CloudGavel's Warrant Service Module addresses the complexities associated with **executing** and **tracking warrants** effectively.

Recognizing the need for improved **inter-agency cooperation** and **streamlined workflows**, the module aims to streamline the warrant management process.

**Streamlined Process:** Guides warrants from authorization to execution.

**Secure Warrant Management:** Track active warrants securely, manage updates, and access criminal information.

**Seamless Integration:** Integrates seamlessly with the eWarrant module or third-party systems.

**Customized Solutions:** Tailored solutions to meet specific agency needs.

### **Zero Foot-Print Solution:**

**CloudGavel** is a cloud-based system that allows users access their accounts from any device, anywhere. Our mobile app offers flexibility to work anytime, anyplace.
